

Polycystic Ovary Syndrome (PCOS)

1 in 10 women* live with PCOS in the UK

Do you have any of the following:

- Irregular periods
- Excess hair
- Hair loss
- Weight problems
- Acne and oily skin
- Mood swings

If you do it could be
Polycystic Ovary Syndrome
(PCOS)

**Most of the research carried out refers to women, however we know this may affect people who are trans or non-binary, those who were assigned female at birth.*

What is PCOS?
